

International Reporting, Banking & Payments

Fitzgerald & Law (F&L) is uniquely placed to provide a full selection of international reporting, banking and payment services to your company.

Whether you are already established in the UK and Europe or setting up for the first time, we can support and guide you and your business through the regulatory, planning and reporting requirements. Services are available on a consulting basis - or we can act as your fully outsourced global finance team.

Supporting your existing in-house team

Many of our international clients start with a small European footprint by setting up a UK company. As they grow, they sometimes decide to take certain services in-house. In such cases, many come to rely on F&L to provide services which complement their existing in-house teams.

Multi-territory coordination

If there is only an in-house team at headquarters, then it's important to consider the local knowledge you will need in order to get established quickly, while remaining compliant locally. For example, in the UK, iXBRL is a form of accounting language (which tax computations need to be written in) and in Germany, original transaction records need to be kept for ten years. An understanding of local practices, regulations and timelines right from the very beginning is key to global success and avoiding delays.

Our multi-territory coordination service provides you with one point of contact through which you can manage your global affairs.

Our Global Expansion experience incorporates Australia, Austria, Belgium, Brazil, Bulgaria, Canada, China, Denmark, Dubai, Finland, France, Germany, Greece, Hong Kong, Hungary, India, Ireland, Israel, Italy, Japan, Jordan, Korea, Lithuania, Luxembourg, Macedonia, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Russia, Singapore, South Africa, Spain, Sweden, Switzerland, Turkey, UK, Ukraine & USA. We can provide a flexible service in all of these countries, tailored to your needs.

As a Consultant, who has worked with many companies entering the EMEA market, I can say with conviction that F&L has got global expansion covered. F&L know the 'what, when and how' of getting international businesses moving.

Donald Hamilton, Entrepreneur
